[REDACTED] 25X1

- 3 -

1. [REDACTED] Comment. The volume of outgoing ammunition from the GDFG depot at Toepchin continued at the level of the preceding months. The receiving stations are unloading stations of army ammunition depots. 25X1
2. [REDACTED] Comment. As the GDFG ammunition depot at Hohenleipisch has not been mentioned in supply traffic to the armies since some time, no comparable information is available. 25X1
3. [REDACTED] Comment. Report confirms the traffic relations of the Eighth Gds Army ammunition depot at Altenhain to subordinate divisions and artillery brigades. The March 1954 ammunition supply surpassed the March 1953 volume by about 100 carloads or 30 percent. However, the about 1,200 tons represent only one fifth of the ammunition issues for the army. 25X1
